To whomever it may concern

I have known Peggy Høegh Grays since August 2005 when I started as trainee at Wind Shipping. Peggy was my mentor during the 2 years in training.

Peggy supported me from the first day both professional and personal and did always show great patience when passing on her knowledge to me and others, she keeps focus and is very professional in her way of working.

I was quickly a part of the operation team and after a few months I had the responsibility of my own ships.

My two years apprenticeship was incredibly educational. I was dealing with all aspects of operation and hire payment/payment of vouchers.

When my apprenticeship was coming to an end Peggy got a new job with Scan Trans and I was the only operator back with Wind Shipping. It was decided that I should take over Peggy's job and manage the operation myself.

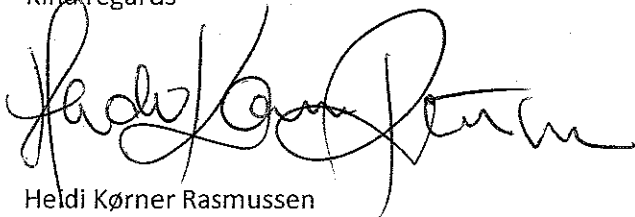

With the knowledge passed on from Peggy it all went very well, and when I left the company for new adventure I left with a good confident in myself and my work – thanks to Peggy.

I later had the pleasure of working with Peggy for Scan Trans in Malaysia. Again she was there for me even though I was not in training anymore, but instead a young girl standing on my own feet in a new country for the first time. Peggy again showed great patience in showing me around and getting me settled in the new job. She was a big support for me.

It has always been a pleasure to work with Peggy. She has knowledge in many fields, incredibly inspiring and very professional person.

I truly believe that Peggy's influence on my career is one of the reasons why I find this industry so inspiring. Personally I hope our paths meet at a later date. I can only give Peggy my best recommendation.

Kind regards

Heidi Kørner Rasmussen

Operations manager – Thorco Shipping A/S
